The Oxford Very First Atlas Activity Book develops the atlas skills and reinforces the concepts introduced in the Oxford Very First Atlas, such as the 'Earth in space', the world, continents, countries and the British Isles. The Activity Book enables children to create their own personalised maps identifying countries and places that they know, and new places that they are learning about. Assessment for Learning support throughout the Activity Book enables teachers and parents to monitor their progress.

The Oxford First Atlas Activity Book develops the atlas skills and reinforces the concepts introduced in the Oxford First Atlas. The Activity Book offers maps and activities to encourage pupils to work independently and to practice and develop their knowledge and understanding of the topics and themes covered in the atlas. Assessment for Learning support throughout the Activity Book enables teachers and pupils to monitor their progress. The Oxford First Atlas is a brightly illustrated and informative first atlas for young learners in their first years at school. It introduces pupils to key geographical themes and topics, including coasts, rivers, mountains, towns, travel and the environment, and develops early map concepts and atlas skills. It encourages pupils to talk and learn about maps and places. The Oxford First Atlas is also accompanied by the Activity Book for independent work, the Teacher's Handbook for practical page-by-page guidance on using the atlas, and the e-Atlas CD-ROM for whole class display on interactive whiteboard.

Hmmmm indeed! This is supposed to be for children but even as an adult buying for her little sister I was truly disappointed. Where's all the colourful flags relating to each country? where's all the little key facts about each country relating to them too. There must be a better kids atlas out there?! I certainly remember there being some as a kid in the 80's?! Note to self: Take more time on researching before rushing to order!

Have you ever wondered: \* What the Earth looks like from space? \* How many continents there are? \* Where Mount Everest is? Find out in your very first atlas! The Oxford Very First Atlas is a stimulating first atlas for young children. It is completely up-to-date with accurate, easy-to-read and colourful mapping, presented in an accessible visual layout based on research into how young children use maps. It introduces young learners to maps and develops early atlas skills, encouraging them to talk about local and distant places and to find key places on maps. It includes: \* An introduction to the globe and places around the world \* Stunning images of the Earth from space \* Clear and colourful maps of the world and all the continents. The Oxford Very First Atlas is also accompanied by an Activity Book for independent work to develop map skills and an e-Atlas CD-ROM providing an interactive version of the atlas for whole-class display.

Dr Patrick Wiegand taught in primary and secondary schools before being appointed to the School of Education at the University of Leeds where he trained teachers, taught on Masters' programmes and supervised PhD students. He became Head of Teacher Training at the University of Leeds and then Reader in Geography Education. He has researched children's thinking with maps and Geographic Information Systems (GIS) throughout his career and has published many books, chapters and research papers in this area including *Learning and Teaching with Maps* (Routledge, 2006). He was Chair of the Cartography and Children Commission of the International Cartographic Association, held a Leverhulme Research Fellowship in GIS in Education, and has served on the UK Committee for Cartography. He has always worked to improve the quality and usability of classroom teaching materials and has been Editorial Adviser for OUP atlases for 30 years.

The "Oxford First Atlas" is a bright and informative atlas for all 7-9 year olds. It combines the essential features of colourful, clear mapping with many colour photographs, including aerial photos and satellite imagery, and light and humorous artwork. The atlas makes the link between photograph, artwork, map symbol, and text in a number of expanded picture keys. There is simple, clear topographic mapping of the whole of the British Isles; Environmental maps of each of the seven Continents and the Polar regions; up-to-date World maps using the curriculum preferred projection (Eckert IV); and a child-friendly index, which includes both page numbers and grid references. Topics including planet earth, making a map of the world, countries, rivers, hills and mountains, weather, where people live, how the land is used, and journeys are covered.

The Oxford Very First e-Atlas CD-ROM provides an interactive whiteboard version of the Oxford Very First Atlas for whole class display or individual study, including an audio version of the atlas and resources to encourage young children to talk about maps and places - and you can edit the text to make the atlas your very own! Talk - Images, maps and activities stimulate young children to talk about maps and places and learn key concepts and vocabulary Read - Read along with the atlas and encourage young children to find places they know and learn about new countries and places in the world Edit - Change the text to make the atlas your very own! The CD-ROM also includes support notes for teachers and map templates for atlas activities. Also available accompanying the Oxford Very First Atlas: Activity Book, Teacher's Handbook, and e-Atlas CD-ROM.
