

Packaging Structures, Naomi Ferguson, Links International (Leading International Key Services Barcelona, S.A.), 2012, 8415123965, 9788415123965, 295 pages. This exciting volume presents the most innovative and intelligent packaging designs from internationally recognized as well as up-and-coming designers. Packaging speaks to its target audience on multiple levels, transmitting messages through text, graphic design, materials and the form and construction of the packet itself. This publication focuses on innovative structural design in packaging and features an extensive selection of projects from all over the world. Containing a wealth of creative ideas for professionals and students of product design, the book is accompanied with a CD containing the cutting patterns for all the designs featured, so that readers can print out and construct their favorite designs!.
