This book claims 'games' which it does not have. It has one side which is the normals, which only goes into massage, having fun with food, etc. The other side is heavily into bondage, chains, whips, punishment. This book gave us nothing new and interesting to try that we would want to try. Overall we were very disappointed with this book.

Well, the rating of this book really depends on if you enjoy sex games or not. Some people don't, and like to get right to the action, but some enjoy fantasy and role playing. If so this book is for you. There is a lot of that stuff in this book, from dressing up, to good props, that you can use on each other in fun ways. I am not a big role player myself, that is why I gave it only three stars. I was expecting this to be a book with more games that you can play in the way of strip and do what I ask games. If you are looking for that, then this book won't be for you.

I hate to be blunt, but quite frankly, most of the "games" in this book will probably have occurred to just about anyone with much experience with their partner. And if you and your partner are a new couple, just starting out, it's unlikely you've got the kind of trust built yet to sit down and go through the book together. I suppose one or two new ideas might get generated, but most of this stuff is fairly basic. Surprise your lover, take a bath together, gently tie him/her up, drink champagne, etc. etc. Also, if you're looking for anything explicit in the text, look further. It is quite tame. The photos are soft core and not terribly inspiring either.

This light-hearted guide to after-dark fun is the ultimate accompaniment to Anne Hooper's previous title "Ultimate Sex". If you think you've tried everything to spice up (or recover!) your sex life - THINK AGAIN! This little book provides hours of entertainment for you and your partner. There's something for everyone, whether you're a couch potato or a gymnast you're guaranteed to enjoy the fruits of this read. Hooper's down-to-earth style makes reading a pleasure as well as an eye-opening adventure. 5 stars- a book you WILL HAVE TO PUT DOWN... regularly!!

The book is fun to read, and as is the trademark with DK books, the illustrations are beautifully done. The ideas in the book are fun and entertaining as well as simple and practical. If you're just starting out into adventurous sex, this is a great book. However, if you're quite adventurous already, this might not be the book for you.

Erotic games to excite the imagination and increase sexual confidence. Expand your sexual repertoire and overcome inhibitions with Anne Hooper's unique and imaginative guide to erotic sex games. With something to suit everyone, you and your partner can discover how to live out daring fantasies and spice up your sex life. From stimulating games using an

First, it implies that someone is in charge, which can be reassuring to nervous beginners. Second, becoming Games Master or Mistress is the basis of some entertaining gaming in itself. Third, in order to be a Master or Mistress you need to be trustworthy and dependable – not perhaps the qualities you may have first thought of. Men and women who play sex games are often more trusting than couples with more traditional relationships.

If you are playing a sex game in which your partner is at your mercy, you may be making a mistake if you stop the action the first time your partner asks you to do so. This is because although your partner may be a little scared, they may also be delighted at the same time. The two emotions often go hand in hand. "Stop, stop," can actually sometimes mean "This is amazing, please don't stop." So how can you tell when you really ought to stop?

Without complete trust, sex games simply do not work. There's not a lot of point in setting up elaborate safety precautions if deep down you fear your wishes will be disregarded in any case. If you are tense and nervous, your own sexual experience will be at best poor and at worst threatening. In such circumstances, the first rule of the game is: DON'T DO IT.

Introduce your partner to aspects of your world other than sex. Let them see you in the context of your friends, and of your friends' good opinion of you. The more you open up to them, the more secure they will feel. Think "honest" to yourself. In order for someone to find you reliable, you actually must be reliable.
