Capricode: Health Building Procedures, Great Britain. Department of Health and Social Security, H.M. Stationery Office, 1986, 011761291X, 9780117612914, . Capricode provides the mandatory procedural framework for managing and processing NHS capital building schemes. The procedures comprise a series of interconnected stages as follows: 1: Approval in principle. 2: Budget cost. 3: Design. 4: Tender and contract. 5: construction. 6: Commissioning. 7: Evaluation. The procedures reflect the logical sequence of events necessary to progress health building schemes from inception to completion and commissioning. They provide for clear timetabling and effective management of schemes and the ongoing monitoring and evaluation of performance..
