BEYOND THE NORTH STAR is the first book in the MOULTRY'S MOON series starring a very cute space creature called Blob. Blob and Major Moultry take a trip beyond the North Star to the beautiful planet Winter, where they play hide-and-seek all day. When it's time to go home, Blob discovers that Winter is a truly magical place, when the souvenir he takes home with him miraculously disappears.

This is a fantastic book that both my children (and I) have enjoyed thoroughly time after time. Major Moultry and his constant companion Blob, go on a day trip to a beautiful ice planet, where they play and find wonder among the glaciers. The book teaches ecology, physics and the wonder of exploration without the reader being aware of it. A lovely story told through minimalist text and sumptuous images.
