I really love this garden deck. The box is nice and sturdy so I can keep everything together in one place to refer to over and over again. The cards are broken down into spring and summer bulbs so it's easy to find what I'm looking for. The projects included are well explained with really gorgeous photographs to refer to. Each individual flower bulb card has information on when to plant, planting depth, how much light it needs, what type of soil it needs, what zone it grows in and when it blooms along with information on the specific bulb and the types of things you can do with it. The photographs are absolutely stunning and really motivate me to be creative. Definitely a fantastic inspirational and reference tool.
