S.J. ENNA & MICHAEL WILLIAMS

ADVANCES IN  
PHARMACOLOGY

Contemporary Aspects of Biomedical Research: Drug Discovery, , Academic Press, 2009, 0123786436, 9780123786432, 520 pages. Each volume of Advances in Pharmacology provides a rich collection of reviews on timely topics. Emphasis is placed on the molecular basis of drug action, both applied and experimental. Articles written by leading investigators in the field informs and updates on all the latest developments.

Advances in Pharmacology, Volume 44 , , Apr 8, 1998, Science, 525 pages. Each volume of Advances in Pharmacology provides a rich collection of reviews on timely topics. Emphasis is placed on the molecular bases of drug action, both applied and ....

Cardiovascular Pharmacology: Heart and circulation Heart and circulation, , Nov 26, 2010, Medical, 344 pages. Cardiovascular disease remains a major cause of death and disability in developed countries and, increasingly so, in the developing world. Presented in this volume of Advances ....

Current Challenges in Personalized Cancer Medicine , , Dec 31, 2012, Medical, 576 pages. For this volume of Advances in Pharmacology we have brought together some of the foremost basic science and clinical researchers to discuss some of the new frontiers in the ....

Immunopharmacology , David J Webb, Feb 18, 2013, Medical, 352 pages. This new volume of Advances in Pharmacology explores the current state of Alzheimer's disease research and therapeutics. Chapters cover such topics as the B cell targeted ....

The Therapist's Cat , Stephanie Sorrell, 2012, Fiction, 188 pages. This is a poignant, charming and amusing fiction story that raises very moral questions about our interaction with animals and how this may impact on us at a later date ....

PHARMACOLOGY OF G PROTEIN COUPLED RECEPTORS , , Sep 8, 2011, Medical, 408 pages. G protein coupled receptors remain the most important class of therapeutic targets in medicine. In the last 5 years, tremendous advances have been made in our understanding of ....

GABAB Receptor Pharmacology: A Tribute to Norman Bowery A Tribute to Norman Bowery, , Sep 21, 2010, Medical, 520 pages. This monograph was assembled to honor Professor Norman Bowery and his work on the 30th anniversary of his discovery of the GABAB receptor. In the present volume, leading ....

GABA , , Jul 26, 2006, Medical, 368 pages. A great deal of progress has been made in defining GABA (gamma-aminobutyric acid) transmission in the brain. Volume 54 of the Advances in Pharmacology series has also provided ....

Cardiovascular Pharmacology: Endothelial Control Endothelial Control, , Dec 16, 2010, Medical, 336 pages. Cardiovascular disease remains a major cause of death and disability in developed countries and, increasingly so, in the developing world. Presented in this volume of Advances ....

DNA Topoisomerase: Biochemistry and Molecular Biology Biochemistry and Molecular Biology, , Nov 7, 1994, Science, 320 pages. Each volume of Advances in Pharmacology provides a rich collection of reviews on timely topics. Emphasis is placed on the molecular basis of drug action, both applied and ....

EDHF The Complete Story, Michel Feletou, Paul Vanhoutte, Nov 2, 2005, Medical, 312 pages. The advances made in vascular biology in the last 25 years have considerably changed the perception that one could have of the endothelial cells. Once considered as a diffusion ....

PRAISE FOR THE SERIES "...recommended not only to pharmacologists but also to all those in related disciplines"--NATURE "The works do represent an extensive compilation of recent data by

outstanding researchers in this area. They are generally scientifically excellent, the bibliographies are good, and the individual reports are clear, concise, and extremely well illustrated."--H.E. Kaufmann in CHEMOTHERAPY "Superb reading material."--JOURNAL OF PHARMACEUTICAL SCIENCES

Contents: Defining the role of pharmacology in the emerging world of translational research / S.J. Enna and M. Williams -- Anti-inflammatory agents as cancer therapeutics / Khosrow Kashfi -- The development and pharmacology of proteasome inhibitors for the management and treatment of cancer / Bruce Ruggeri ... [et al.] -- Subtype-selective GABA(subscript A) receptor modulation yields a novel pharmacological profile: the design and development of TPA023 / John R. Atack -- New approaches for the treatment of sleep disorders / Nicholas A. DeMartinis, Jayesh Kamath, and Andrew Winokur -- Current and emerging strategies for treating dyslipidemia and macrovascular disease / Jerry R. Colca and Rolf F. Klerzien -- Discovery of drugs to treat cocaine dependence: behavioral and neurochemical effects of atypical dopamine transport inhibitors / Gianluigi Tanda, Amy H. Newman, and Jonathan L. Katz -- Novel strategies and targets for the management of hypertension / David A. Taylor and Abdel A. Abdel-Rahman -- New approaches to the pharmacological management of major depressive disorder / Jeffrey M. Witkin and Xia Li -- Preclinical behavioral models for predicting antipsychotic activity / Vincent Castagné, Paul C. Moser, and Roger D. Porsolt -- New developments in the therapy of pulmonary fibrosis / Alexander Scriabine and Daniel U. Rabin. Includes bibliographical references and index.

Each volume of "Advances in Pharmacology" provides a rich collection of reviews on timely topics. Emphasis is placed on the molecular basis of drug action, both applied and experimental. This title includes articles written by leading investigators in the field. It informs and updates on all the latest developments.
