

The Cancer Challenge, Malcolm H. Goyns, Immorgene Concepts Limited, 2008, 0955945216, 9780955945212, . Despite cancer being one of the biggest killers, lifestyle choices can greatly reduce the risk of developing this disease and can significantly improve the chance of surviving it, if it occurs. The first section of the book explains what cancer is, the second section explains how lifestyle can reduce the risk of developing cancer and the final section demystifies cancer treatment in an attempt to remove the uncertainty faced by patients. This book is the newly revised version of Dr. Goyns' previous book, "Cancer and You."
