Cassie's Big Day, Marjorie Greene, Marjorie A. Greene, 1999, 0974176400, 9780974176406, . Do you remember your first day of kindergarten? How did you feel? How did you and your mother adjust to it? Can you think of anything that you would like to have done differently? This book is about a little girl named Cassie. Cassie was excited about the thought of starting kindergarten, but when the day came she didn't want to go. Her mommy had to think fast. What could she do or say to help put the joy back in her little girl's heart? Cassie and her mommy had some great times together over the past four years and Cassie didn't want them to end. Although Cassie was starting school and her mommy was happy for her, she wished nothing had to change. Her mommy knew that she was going to miss her little girl, but she had to find some way to help Cassie through the transition. "Cassie, wake up!" Mommy said as she gently shook her little girl's shoulder. "Wake up, Cassie!" she said again. "You start school today, remember?" Rubbing her eyes with a whine in her voice, Cassie said, "Mommy, I don't want to go to school. I want to stay home with you. I don't like school. Let's pretend that there is no school." J.J. Murray brings his wry sense of humor back to the pages of a book in his latest novel, JADE ED. The book tells the story of Jade Currie, a young woman who sort of falls into the teaching profession. Through Jade's experiences the author explores many of the issues being faced by our nation's schools. What I enjoyed most about the book was Murray's ability to use humor to address very serious matters that plague our educational system. I found myself wondering whether I was laughing at the humor, or laughing to keep from crying about the sad realities that many students face. As a person who has worked in the

school system, I could relate to many of the topics he addressed, such as out of touch

administrators, teen suicide, school violence, teen pregnancy, and the lack of parental involvement. While the novel touches on a lot of serious concerns, the plot is witty and engaging. As Jade learns how the system works and then learns to work the system, I found myself anxiously flipping pages to see how her next drama would unfold. Despite the fact the book's primary focus is on Jade's professional development, the story also highlights her personal growth.

This book started a little slowly for me, but it wasn't long before I found myself caught up in Jade's antics and the ever unfolding drama she encountered. This book will have wide reaching appeal because the characters in the book are diverse and the issues addressed are universal. With laugh out loud humor and a strong, socially conscious plot, JADE ED offers a one-two punch.

Stacey Seay is a native of Northern Virginia where she currently resides. She is an avid reader and particularly enjoys biographies, mainstream and Christian fiction. On the rare occasion that she does not have her nose stuck in a book, she enjoys watching movies, surfing the net and shopping (especially for books). She also enjoys spending time with her friends and family, especially her husband, who always keeps her laughing and her son.

A small educational book about HIV/AIDS and other sexually-transmitted diseases. The book is full of facts, easy and quick to read, with blank pages, so that the reader can write his/her own notes. "No Respector of Person" takes the reader into the life of Pretty Girl, a thirteen year old, as she comes face-to-face with a persuasive and seductive woman named HIV/AIDS. To Pretty Girl's surprise, HIV/AIDS is willing to educate her about the dangers of being in her presence.....

From 2003 to 2005, she hosted Women Encouraging Women (W.E.W) a women's group dedicated to encouraging women to appreciate the importance of self love and to know their purpose in life. She also appeared monthly on a local radio station and presently hosts a telephone Ministry. Marjorie is also the Assistant Manager for Soul Cipher Records, an independent label owned by her sons.
