

"An incendiary and uproarious work of learned polemical writing, unique in its scientific sophistication and authority. Rather than criticizing science from the outside, Berlinski excoriates its atheist pretensions from within."

The Devil's Delusion: Atheism and Its Scientific Pretensions, David Berlinski, ReadHowYouWant.com, 2010, 1458758567, 9781458758569, 290 pages. Militant atheism is on the rise. In recent years Richard Dawkins, Sam Harris, Daniel Dennett, and Christopher Hitchens have produced a steady stream of best-selling books denigrating religious belief. These authors are merely the leading edge of a larger movement that includes much of the scientific community. In response, mathematician David Berlinski, himself a secular Jew, delivers a biting defense of religious thought. The Devil's Delusion is a brilliant, incisive, and funny book that explores the limits of science and the pretensions of those who insist it is the ultimate touchstone for understanding our world..
